More information on the conference program and registration to come!

- Annual Meeting and Banquet

Tuesday, June 24th, 2025 @ TBD

Location: Round the Bend Steakhouse in Ashland, NE

More information on the meeting time and registration to come!

Sam Allen, P.E., M.ASCE

From the President

Hello ASCE Nebraska Section,

What a fun and busy few weeks it has been!

March was kicked off by the environmental lunch meeting held at Beacon Hills. Lowell Blankers and Adam Nebel from the US Army Corps of Engineers presented on the Section 408 program and flood risk reduction projects. We also hosted our Truss Busting winners and presented them their awards. Congratulations to the students from Gross Catholic and Omaha Westview High Schools on their successful designs!

After a year of planning, the UNL/UNO Student chapters got to host the Mid-America Student Symposium in Lincoln from April 3rd – 5th. From concrete bowling to concrete canoe and steel bridge, several members from the section and region volunteered their time as judges and other roles across multiple competitions. While also having to plan and host the symposium, the two Nebraska schools fielded some competitive teams and placed well in several events. I would like to congratulate all the competition teams and a special congratulations to the symposium planning team for pulling off a successful event!

Coming up on April 24th is the joint meeting with the UNO student chapter at the Peter Kiewit Institute on Omaha's campus. Jared Kreher from Nebraska Department of Transportation will be presenting on Modular Roundabouts. This is a great opportunity to connect with the UNO student chapter as the semester comes to an end. Registrations are due April 23rd, so please be sure to sign up and look for more information in the following link: [Nebraska ASCE UNO Joint Meeting](#).

While details are still being finalized, there are a couple more events on the horizon. The Transportation conference will be held on May 30th at the Scott Conference Center. Also, our Annual Meeting will be held on June 24th at Round the Bend Steakhouse in Ashland. Save the date! Be on the lookout in the coming weeks for when final details are published and registrations are available.

As always please be sure your contact information is up to date at asce.org allowing you to receive all our emails for future events. We are always looking for volunteers to be more involved in our section. Please don't hesitate to contact me with any questions or concerns you may have.

Thank you,

Sam Allen

March Environmental Section Meeting

On March 12th, 2025, the Nebraska ASCE Environmental committee hosted the March Section Meeting at Beacon Hills in Aksarben Village. The meeting topic focused on USACE Omaha District presentation on the Section 408 Program and other related USACE programs/regulations/policies, involving proposed alterations to USACE Civil Works projects (i.e. Flood Risk Reduction Projects). The presenter was Lowell Blankers and Adam Nebel from the US Army Core of Engineers.

The winners of the Truss Bustin' competition held on February 22nd were also presented their awards during the meeting.
