From the President

Hello ASCE Nebraska Section,

The school year is over and summer is here! Congratulations to all our graduates and good luck to those with summer internships. It has been yet another remarkable year of events with one more to go before taking a break over the summer.

The last conference of the season was held this past Friday, May 30th where the ASCE/NITE Transportation conference had its most successful conference to date with record attendance! A variety of topics were discussed, from automated traffic enforcement & artificial intelligence in engineering, to project updates at Eppley Airfield & Omaha Street Car. We thank all of our transportation technical committee for putting on a great conference!

Coming up on June 24th is the ASCE Annual Banquet held at Round the Bend Steakhouse in Ashland. This is a celebration where we recap the previous year and present our annual awards, honor our new life members and install our new board officers. For more information and to register, please use the following link: [2025 NEASCE Annual Banquet](#). Hope to see you there!

With the annual banquet around the corner, it is a great time to be more involved! We have a great group of board members and are always looking for new ideas. If you are interested or want more information, please email me.

As always please be sure your contact information is up to date at [asce.org](https://www.asce.org) allowing you to receive all our emails for future events. We are always looking for volunteers to be more involved in our section. Please don't hesitate to contact me with any questions or concerns you may have. It was a fun year and it was a great honor to be your president!

Thank you,

Sam Allen

ASCE/NITE May Transportation Conference

On May 30th, 2025, Nebraska ASCE and Nebraska ITE hosted the 21st Annual Transportation Conference at the Scott Conference Center. The conference consisted of a wide variety of speakers and educational sessions including the Bellevue Long Range Transportation Plan, Eppley Airfield Construction Updates, and Omaha Streetcar Updates.

ASCE/AISC National Steel Bridge Competition

On May 30th - 31st, 2025, the Student Steel Bridge Competition National Finals was held at Iowa State University in Ames, Iowa. This event brings together the winners of 20 regional competitions throughout North America to compete for the top spot in the nation.

NE ASCE members Lauren Flickinger, Caitey Ruzicka, and Garrett Martindale volunteered as Bridge Marshals at the conference.
