From the President

Hello ASCE Nebraska Section,

Hope everyone has been able to enjoy the nice weather! Though our cycle is quickly approaching the end, there are still a couple events coming up!

After a couple quiet weeks after the student symposium, the Nebraska Section & UNO student chapter had a joint meeting on April 24th. Jared Kreher from Nebraska Department of Transportation presented on Modular Roundabouts & Bridge projects. We had a great turnout of students & professionals even with the rain storms in the area that night!

Speaking on interactions between professionals and students, the Younger Members Group is back! After 3 years of hiatus, the Nebraska ASCE Younger Members Group held their first event on May 6th hosting a tailgate before the Nebraska-Creighton baseball game. Though Nebraska ended up falling short, the event was a great success as about 25 young professionals and students gathered and had a good time. Be on the look out for more YMG events in the near future!

Coming up on May 30th is the 21st annual ASCE/NITE Transportation Conference at the Scott Conference Center in Omaha. The planning leads have worked hard to put together another great conference. Be sure to sign up by Friday May 23rd. For more information and to register, please use the following link: [2025 ASCE/NITE Transportation Conference](#).

Also, coming up on June 24th is the ASCE Annual Meeting held at Round the Bend Steakhouse in Ashland. This is a celebration where we recap the previous year and present our annual awards, honor our new life members and install our new board officers. For more information and to register, please use the following link: [2025 NEASCE Annual Meeting](#). Hope to see you there!

As always please be sure your contact information is up to date at asce.org allowing you to receive all our emails for future events. We are always looking for volunteers to be more involved in our section. Please don't hesitate to contact me with any questions or concerns you may have.

Thank you,

Sam Allen

April ASCE and UNO Joint Section Meeting

On April 24th, 2025, the Nebraska ASCE Transportation committee hosted the April Joint Section Meeting at UNO in the Peter Kiewit Institute. Jared Kreher from Nebraska Department of Transportation presented on Modular Roundabouts & Bridge projects. The event also included a social and pizza for attendees to network.
